## DETAILED ACTION

### *Response to Amendment*

1. This Office Action is in response to applicant's amendment dated February 1, 2006 in response to PTO Office Action dated November 1, 2005. The amendments to claim(s) 1, 4, 11, 17, 18, 23, and 24 have been noted and entered in the record, and applicant's remarks have been carefully considered resulting in the action as set forth herein below.
2. Claims 1-27 and 29 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose selecting a combination of functions and a sequence list forming a logical sequential concatenation of said functions, each function including microinstructions wherein said selecting said sequence list includes validating or optimizing said sequence list wherein said validating or optimizing comprises searching for a faster version of a first partial sequence list selectable for said sequence list, wherein said faster version is a second partial sequence list as per independent claims 1, 11, and 24. Prior art, for example US 5,398,321 to Jeremiah **discloses** merger of routines which results in a new microcode routine comprising of microinstructions that are different from the microinstructions of the two pre-existing microcode routines being merged and **does not disclose** the logical sequential concatenation of functions resulting in concatenation of generic groups representing one or more microcode routines which are unmodified pre-existing microcode routines.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
